

# Neutral DeRust

## Rust Remover

**Neutral Derust** is a liquid rust remover and descaler for stripping light to moderate rust and scale.

**Neutral Derust** is a mild pH formula which eliminates many hazardous acids and caustics.

**Neutral Derust** is low foaming and can be used in immersion tanks as well as spray systems and vibratory processes.

**Neutral Derust** is very effective in ultrasonic systems for removing mill scale and replacing shot blasting.

### Uses:

Use at 10 to 20% by volume depending on severity of rust or scale. Acid resistant tanks and pumps are recommended. Recirculating systems should be constructed out of stainless steel.

### Physical Properties

Appearance	Light straw	pH @ 2%	~5.6
liquid Odor	Mildly acidic	Flash Point	None
Specific Gravity	1.2	Rinsing	Excellent
Foaming	Low		

### Environmental
